Youth Development Program
(In partnership with Bladensburg High School)

VISION
Healing Communities By Healing Our Youth

MISSION
End Time Harvest Ministries Engages Youth in Prince George's County for Academic, Career, and Life Success

End Time Harvest Ministries is Bridging the Gap of education, health, poverty, safety, and morality by:

- Graduating students on-time
- Preparing students for college, careers, and the workforce
- Equipping students with leadership and character skills
- Promoting youth-led health and wellness advocacy

Program Descriptions

Pathways to Career Success (PTCS) is our premiere evidence-based in- & after-school academic, college, career & workforce readiness program embedded in BHS’s day and health sciences curriculum for 9th-12th graders. Annually, our graduates achieve a 99% graduation rate.

Wellness Ambassadors Leadership Program (WALP) is a peer education program where students learn and teach others to make healthy lifestyle choices. Wellness Ambassadors are youth stakeholders in Port Towns and Prince George’s County communities who partner with community residents and help lead health and wellness and other environmental health initiatives such as connecting storm water management to health and safety in schools and communities.

Port Towns Youth Council (PTYC) is ETHM’s Leadership and Character development program. Youth develop their leadership skills through the peer leadership training they receive from community leaders and other business experts. These youth Wellness Ambassadors hone their advocacy skills as they plan, communicate, and think critically about human and social justice, which help shape public policies that positively impact the lives of youth and families.

Jobs For Youth (JFY) Summer Employment Program is ETHM’s workforce readiness program that provides summer internships for qualified students who participate in ETHM’s PTCS and PTYC programs. Partner businesses mentor and expose interns to job opportunities that match students’ career interests.
9th grade students are selected annually into the Pathways to Career Success program and monitored until they graduate. Case management is critical to students’ success as their graduation readiness is monitored to ensure that students achieve the academic, career, and health goals they set for themselves with their career/job coach upon program entry.

Selection criteria requires, students:
1. Are willing to participate
2. To be nominated by school administrators, counselors, teachers, or municipal leaders
3. Must have at least a 2.0 GPA
4. Must have active parent/guardian participation

Program objectives:
1. Students improve their literacy skills
2. Students enhance their critical thinking, communication, writing, decision making, planning and problem solving skills
3. Students are prepared to graduate on-time
4. Students can publicly present their job experience goals and how their goals connect to their career choice
5. Students are able to explain the importance of managing stormwater runoff

Program benefits, students:
1. Participate in program tuition free
2. Receive individual career and job coaching
3. Acquire 75-100 service learning hours by volunteering in county communities
4. Acquire summer internships with ETHM partner businesses
5. Graduate on-time
6. Receive scholarships to attend college or vocational/trade schools
7. Meet their legislative, business, and other community leaders
